2019 – 2024

LANGUAGES

- **English:** Native / Professional Fluency
- **French:** Elementary Proficiency (A2)
- **German:** Beginner (A1 – Actively Studying)

PROFESSIONAL SUMMARY

Highly analytical Frontend Engineer and UI/UX Developer with over 4 years of experience building responsive, user-focused web applications. Expert at bridging human-centered design systems with frontend architectures using React, Vue, and Tailwind CSS, backed by NoSQL/SQL database administration. Relocating to Germany independently via the self-funded Opportunity Card (Chancenkarte) requires no visa sponsorship, zero corporate relocation costs, and holds immediate legal authorization for deployment.

PROFESSIONAL EXPERIENCE

Lead AI Product Engineer | HealHubCenter, Lagos, Nigeria

December 2023 – Present

- **Architected and engineered** the responsive frontend client for an AI-driven mental health application from scratch using React.js, TypeScript, and Tailwind CSS.
- **Developed** UI/UX motion using React, Vue, and JavaScript Intersection Observers to trigger dynamic on-scroll typography animations and interactive interface rendering.
- **Implemented** full-stack data flows connecting frontend views with a MongoDB backend to parse and store user telemetry data and platform analytics.

Freelance Product Designer & Brand Strategist | Remote

January 2024 – Present

- **Designed** investor-ready corporate pitch decks and business presentations using PowerPoint, converting technical project specifications into structured visual narratives.
- **Developed** end-to-end brand identity assets, vector graphics, and physical marketing collateral for international clients.
- **Collaborated** directly with founders and stakeholders to establish corporate communication layouts and visual content guidelines.

Frontend Engineer & Product Designer | Mirajo.ai & Mirajo Collective (USA / Remote)

July 2025 – February 2026

- **Led the interface redesign** and frontend optimization updates for a US-based AI platform to improve Core Web Vitals performance metrics.
- **Engineered** customer acquisition funnels and automated telemetry workflows, integrating web assets with AI analytics endpoints.
- **Configured and managed** cloud hosting deployment pipelines, including DNS zone architectures and domain infrastructure routing.

Technical Project Manager | CreditRegistry, Lagos, Nigeria

July 2024 – January 2025

- **Managed** project sprint lifecycles and operational workflows for the Africa Credit Expo, coordinating technical timelines for an event attracting over 2,000 delegates.
- **Designed** user interface assets and marketing media layouts using Figma, ensuring unified visual branding across digital event platforms and presentation collateral.
- **Coordinated** stakeholder communications and scheduling pipelines for international keynote speakers and corporate participants.
- **Configured** automated communication workflows using Zoho CRM, increasing attendee registration and digital engagement rates by 35% Year-over-Year.

Web Developer | Peter Abiade & Co, Lagos, Nigeria

Jan 2022 – March 2023

- **Developed and deployed** responsive web interfaces and reusable component layouts utilizing React.js and Tailwind CSS.
- **Maintained** unified web design layouts and accessibility standards (WCAG) to optimize user onboarding and interface responsiveness.
- **Optimized** frontend architectures to eliminate cross-browser visual discrepancies and minimize browser rendering latency.
